

Built-in Filtered Water Dispenser

Redefining Filtration for the Home

Get cleaner, safer drinking water you can trust right at home with Elkay's Liv EZ built-in filtered water dispenser. Great for remodel projects, the Liv EZ water dispenser allows for an easy and cost-efficient install since it is battery powered with no electricity needed. Install it anywhere in the home where there's a water line for instant access to filtered water.

Liv EZ Built-in Water Dispenser: The Details

Convenient, Elevated Hydration

Save your family time and enjoy refreshing water in the kitchen and beyond.

- A sophisticated way to add drinking water to your remodel
- Great for mudrooms, hallways, home gyms and more
- Saves families time; fills containers quickly
- Fits extra-large reusable bottles to avoid spills
- Easy to install

Premier Filtration for Safer Water

Elkay filter reduces more contaminants than leading refrigerator and pitcher filters.

- Elkay WaterSentry® 71300C filter included
- Filter is tested and certified to NSF/ANSI 42, 53, 372 and 401 to reduce PFOA/PFOS, lead, microplastics and more
- Filter is also tested and certified to NSF/ANSI standards to improve chlorine taste and odor
- LED filter status light indicates when a filter change is needed
- Remove front panel for easy filter replacements; filter housed directly in unit

Effortless Experience

Hydrate easily and more sustainably with an innovative alternative to disposable bottles.

- Easy-to-use mechanical push button to operate
- Dispenser replaces need for single-use plastic bottles and expensive water jugs
- Compact in-wall design frees up storage space
- Backlit “Bottles Saved” ticker displays plastic bottle waste saved
- Available in Aspen White, Midnight and Steel Gray to complement any space
